ACTIVITY AT THE COMSTOCK

Force in the Mine Was Increased

MILL DOING SPLENDID WORK

YAMPA SMELTER CONTRACTS-TINTIC PRODUCTION.

A new blower of great capacity has just Park City, and Superintendent Hickey re-ported to Manager Dusseldorf yesterday

mine and no further trouble on sore is anticipated.

new mill, Manager Dusseldorf relis being gradually warmed up to ty and within a very few weeks it handling a fine tonnage. At presemt wenty to twenty-five tons of day are being converted into a very rade concentrate, the hauling of to the sampler began early in the The heavy storms of the past two see days have probably ruined the between the mine and sampler and be several days yet before the first ore from the property can be to market.

UTAH OPERATOR IN IDAHO. Colonel Dorsey's Plans For Opening Up Several Properties.

Colonel George W. E. Dorsey, so well town here through his operations at ockton and in the Mercur district, but no has recently undertaken the rounds out of some big mining enterprises Idaho, reached Boise City Monday st. Concerning his plans and the propites which his company owns. Wedsday's Statesran has the following to y:

and W. H. Hoskins of Calumet, are members of the board of distance of t

OFF FOR THE SHEBA. Superintendent Kescel Takes Utah

Miners and Mill Men With Him.

mission.

By the time stated, however, barring unforeseen accidents, Mr. Kescel is very positive of being able to make the plant earn good money for the company. He has gone to camp prepared to crowd work in all departments with increased energy and before the year closes he promises all kinds of good news for those who have been putting their money into the enterprise since the organization of the company.

YAMPA SMELTER CONTRACTS. Much Machinery Already Bought-

Engineer James W. Neill, who has the frection of the Tintic Mining & Development company's new Yampa smelter in charge, reports rapid headway with the preparation of plans and the awarding of contracts for material. A great deal of the machinery and structural material has already been ordered and early in the coming week the contracts for lumber and dimension timbers will be awarded, the bids being practically all in yesterday. While the plant will start off with only one furnace, capable of treating from 250 to 300 tons of ore per day, the buildings, ore bins, power plant and other portions of the works will be arranged and equipped with room enough and power enough to handle two furnaces, so that when the smelter has proven its efficiency and the developments in the property warrant it, the smelting capacity can be doubled at very short notice and at an additional outlay of not to exceed \$10,000. Without slighting a single feature of the works, Mr. Neill says, the smelters will be placed in commission for less money than a plant of similar capacity was ever built for in Utah before. -Lumber, Etc., to Be Ordered.

CINCINNATI OPERATOR HERE. Lewis Moore, Largely Interested at

Bingham and Park City. Lewis Moore, the Cincinnati mining operator, who is largely interested in the silver Snield and president of the United Bingham and Avondale companies, has strived from the east and is now patient by awaiting a cessation of the storm that he may make a round-up at the United Bingham and Silver Shield, after which be will go out to the Park and look over the Avondale.

the Avondale.

Since Mr. Moore was last here the Silver Shield company has equipped its long tunnel with electric locometive and a long train of large cars, put in an electric power and light plant and driven the tunnel

Are You Going to Take a Vacation?

If so, don't you want to make enough money to pay your expenses? The quickest and easiest way is to buy mining stock, and now is your chance. Don't consider the question until the stock you want has gone beyond what you can or want to pay, but buy while it is cheap and sell when it goes up. If you are uncertain, come and see

REDUCED R The Constant Wearing of a Hat Propagates Dandruff Germs.

There are many men who wear their hats practically all the time when awake, and are blessed with a heavy shock of hair; yet if the scalps of these same men once became infested with dandruff germs, the parasite would multiply all the quicker for lack of air. Baldness would ensue as the final result. Newbro's Herpicide kills these germs and stimulates unhealthy hair to abundant growth. Herpicide is a pleasant hair dressing, as well as a dandruff cure and contains not an atom of injurious substance. Sold by leading drugglists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich.

GRAIN AND PROVISIONS. Chicago, May 22 .- Abundance of rain in the wheat belt and lower cables caused

a weak start in wheat, July being off at the opening \%@\%c at 73\%c. Heavy selling by Armour on the bearish outlook caused a sharp break in May, prices deciling 2\%c. A portion of this was regained later on bidding by the same long. A bullish sentiment at St. Louis caused a demand from commission houses and scattered sources, and started prices upward, July late in the session touching 74c, and the close was firm at 73\%@73\%c, a gain of \%@\%c.

Rain throughout the corn belt imparted a declining tendency to the early market after a steady opening. The close was firm, at near best prices, with July at 14\%c. an advance of \%c.

Oats presented an entirely different aspect from yesterday. July closed with a gain of \%@\%c at 33\%c. Good buying from shorts caused the good tone.

Packers supported provisions and the market was firm. July pork and lard each gained 10c and ribs closed 7\%c higher.

The leading futures ranged as follows: a weak start in wheat, July being off at

higher.
The leading futures ranged as follows:
